

Manufacturer: National Instruments

Board Assembly Part Numbers (Refer to Procedure 1 for identification procedure):

Part Number and Revision	Description
192463A-01L or later	PCI-7811R
192463A-03L or later	PCI-7813R

Volatile Memory

Target Data	Type	Size	Battery Backup	User ¹ Accessible	System Accessible	Sanitization Procedure
Data storage during VI execution	FPGA	40 x 18 Kbits (-01)	No	Yes	Yes	Cycle Power
	Block	96 x 18 Kbits (-03)				
	RAM					

Non-Volatile Memory (incl. Media Storage)

Target Data	Type	Size	Battery Backup	User ¹ Accessible	System Accessible	Sanitization Procedure
Device configuration	FLASH	1M x 8 bits (-01)	No			
• Device information		2M x 8 bits (-03)		No	Yes	None
• FPGA bitstream				Yes	Yes	Procedure 2
CPLD Configuration	CPLD	17KB	No	No	No	None

¹ Refer to *Terms and Definitions* section for clarification of *User* and *System Accessible*
