

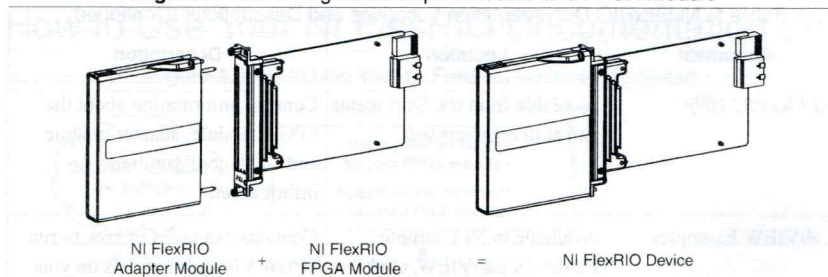

Figure 2. Combining Your Adapter Module and FPGA Module

- The following software packages:

- LabVIEW
- LabVIEW FPGA Module
- NI FlexRIO Support

Note The most recent version of NI FlexRIO Support is available at ni.com/downloads. Search for *flexrio* to download the latest version of NI FlexRIO Support.

- NI FlexRIO Adapter Module Support¹

Note The most recent version of NI FlexRIO Adapter Module Support is available at ni.com/downloads. Search for *flexrio adapter module support* to download the latest version of NI FlexRIO Adapter Module Support. You do not need this software if you are not using an adapter module.

- (Optional) LabVIEW Real-Time Module.
- A PXI Express/CompactPCI Express chassis
- One of the following controllers:
 - PXI Express/CompactPCI Express embedded controller
 - MXI kit and a PC
- One of the following operating systems:
 - Windows 8
 - Windows 7

¹ The NI 1483 adapter module requires the NI-IMAQ instrument driver instead of NI FlexRIO Adapter Module Support.
